BONE at ECOC 2009

Following the big success of last year, BONE will again have a stand at the upcoming ECOC 2009 exhibition. The booth number is 267 and we hope to see you all there.

The European Conference and Exhibition on Optical Communications, being held this year in Vienna, Austria, on September 20–24, is Europe's leading forum for presenting the results of current scientific work as well as major innovations in optical communication related technologies to an international audience. More than 1,000 visitors are expected to attend the conference and more than 5,000 to visit the exhibition.

Held every year, the conference provides an ideal inter- and multidisciplinary platform that brings together people from basic research, R&D, industry and applications, incorporating key aspects such as new fibre-based components, modulation schemes for high speed transmission, 100 Gbps Ethernet and broadband access.

ECOC 2009 is dedicated to supporting and promoting an intense inter- and multidisciplinary knowledge exchange among professionals in the areas that will be the major driving force for future innovations in optical communication technologies. For more information on the exhibition please follow the link:

BONE Summer and Master School 2009

The BONE Summer School 2009 and Master School 2009 will be hosted by the AGH-UST in Krakow, Poland.

The Summer School will take place on the 28th - 29th September and the Master School on the 30th September - 2nd October.

All BONE partners are welcome to participate.

The topics are:

- Advances in Core Networks for the Summer School
- Optical Core Networks - Selected Areas for the Master School

Full details are available on the Summer/Master Schools website:

<http://bone-school.kt.agh.edu.pl/>.

Please check the list of lecturers and proposed topics for Summer School and Master School.

In addition to the lectures prepared by the invited speakers, students are also offered a possibility to present the results of their research. For those of you who are willing to do so, there will be an opportunity to submit an article that will be published in the school proceedings.

Please note the following deadlines:

- full paper submission : 2009-09-10
- camera ready paper submission : 2009-09-18
- final registration : 2009-09-23
