## NEWS ROUNDUP

**BONE @ ICT4EE**  
BONE AT THE HIGH LEVEL  
EVENT ICT FOR ENERGY  
EFFICIENCY

**BONE PRESENCE AT  
MAJOR CONFERENCES**  
BONE at the ECOC09 and  
OFC2010 makes an impression

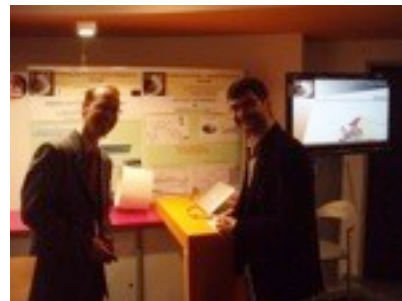

**BONE WORKSHOPS**  
Info for upcoming BONE  
Workshops

## UPCOMING EVENTS

### ICT4EE: The Key Event on ICT for Energy Efficiency

The second edition of the High Level event on ICT for Energy Efficiency was organised by the European Commission's Information Society and Media Directorate-General, in cooperation with the Spanish Presidency of the European Union.

The conference was complemented by an exhibition of stands illustrating results achieved by relevant EU-funded projects in the fields of ICT and Energy Efficiency as well as stands for the European Institutions and the European Commission. BONE and specifically WP21 on Green Networking presented the major results to the wide audience

### BONE at 2 major conferences

During the 2<sup>nd</sup> year, BONE partners had a very successful and considerable presence in 2 major conferences for optical networking, ECOC2009 and OFC2010. In total 42 of the 52 submitted papers from BONE partners were accepted for presentation, 2 for posters while there were 2 invited papers. Meanwhile BONE partners successfully organized one workshop (Grid Computing) and one symposium (Green ICT).

### BONE Workshops

#### CSNDSP 2010

The first joint workshop co organized by the EU FP7 BONE and the COST Action ICO802 while take place within the next 7th IEEE, IET International Symposium on Communication Systems, Networks and Digital Signal Processing (CSNDSP 2010). 21-23 July 2010, Newcastle, UK.

### Upcoming Events

#### BROADNETS 2010

The 7th International ICST Conference on Broadband Communications, Networks, and Systems is an international conference focusing on broadband communications, networks, and systems and covers the entire gamut of next generation

networks, communications systems, applications and services. BROADNETS 2010 will take place on the 18th-20th of October 2010 in Athens, Greece

## iPOP 2010

Following the successful events of iPOP, the 6th Conference on IP + Optical Network (iPOP 2010) will be held at NTT Musashino R&D Center, Musashino-shi, Tokyo, Japan, June 10-11, 2010. The conference is intended to share among the industry and the academia, the knowledge, new findings, and experience on the state-of-the art of IP and optical networking technologies. It features technical sessions and planned exhibitions. The opportunity to participate is open to all.

## Photonics in Switching 2010

The Photonics in Switching 2010 Topical Meeting rotates between Europe, the Americas and Asia on a three-year rotation schedule. In 2010, it is scheduled to move to North America. At the meeting, the latest research activities in areas related to "Photonics in Switching" will be presented in an environment that is conducive to in-depth and open discussions of the trends in this area. The technical conference will take place on July 25-29, 2010 while the exhibition: July 26-28, 2010 at the Monterey Plaza Hotel in Monterey, California, USA.

## CTTE2010

Following the success of previous CTTEs (Stockholm, Paris, Helsinki and Athens), CTTE 2010 is the next event in the series of international conferences/workshops, dedicated to the economics of new telecommunication services and technologies.

CTTE is a major international event for the presentation of original fundamental techno-economic concepts and applications in the field of telecom, media and Internet. It serves as a forum for communication among researchers

and practitioners working in a wide variety of scientific areas within this domain.

The 9th Conference of Telecommunication, Media and Internet Techno-Economics (CTTE) will be held in Ghent, Belgium, June 7-9, 2010.
